US Fleet Tracking Vehicle Tracking System

- LIVE real-time tracking, configurable for 1, 5, or 10-second updates!
- Worldwide coverage with NO additional programs to buy or install - no additional or hidden costs!
- Capable of tracking hundreds of vehicles at once - from the same screen.
- View vehicle speeds LIVE, in real-time - and replay everywhere they've been!
- Virtual fences send notification via SMS text-message or email whenever vehicle enters or leaves.
- Speed alerts send notification via SMS text-message or email whenever vehicle exceeds defined speed.
- 100% Web-based - no software to install and accessible from any web-enabled PC in the world!
- Unparalleled reliability - no batteries to replace, rugged, and warranted for 12 months.
- **12 TIMES faster** updates than closest competitor.
- **Lowest** fixed monthly price in the industry
- **Best coverage** in the industry. ***Utilizes AT&T's Cellular Network!***
- **Unlimited usage.**
- **No contract.**

Unit is small enough to be easily mounted in any vehicle!

Follow this link to see a live demo of a vehicle that is equipped with US Fleet Tracking:
